ENGLISH VERSION

## President's Message

Our educational philosophy is to let the students understand and accept cultures, societies and customs of Japan and other countries, and then educate them to be leaders of the international community in the future.

Additionally, we devote ourselves to promoting the internationalization of Niigata with mutual understanding through international exchanges. Therefore we plan various curriculums and events.

It's not too much to say that studying in Japan will be a turning point in your life. Time spent with us is a very important stage for you to seek your way to go in the future and also gain knowledge and basic skills to go on to Vocational school or university. We do hope that you will enjoy your life with us learning proper and beautiful Japanese and also experiencing many activities in our school. I'm sincerely looking forward to your joining us!

International Japanese College  
President Jung Hackgyoon

## Educational Policy

In order to communicate with each other using language, five skills are necessary: listening, reading, interaction, expression, and writing.

Our school teaches all five skills evenly and develops the comprehensive Japanese language skills necessary to enter a Japanese university or vocational school. We also provide as many opportunities as possible for students to interact with various Japanese people both inside and outside of school. For this reason, we do not simply accumulate knowledge, but focus on putting that knowledge to use, and we place emphasis on conversation practice from the beginner's level.

Our school sees students not as "people who learn Japanese, but as "social beings who live together," and positions teachers as "partners of students." Our instructors, sometimes strict, will support students to help them realize their dreams.

We also focus on education for the "Examination for Japanese University Admission for International Students (EJU)" and "Japanese Language Proficiency Test (JLPT)." JLPT preparation classes begin in the latter half of the beginner's level. The final goal for graduation is C1 for the 18-month course and C2 for the 2-year course.

## Niigata, Japan

Niigata has an estimated population of 810,000 people and is the only ordinance designated city facing the sea of Japan. It is the point of entry for trade from countries such as China, Korea, and Russia.

Niigata has a highly developed transportation network for domestic travel.

The bullet train, for instance, takes only 1.5 hours to reach Tokyo. The Niigata International Airport also offers direct flights to and from many countries.

Furthermore Niigata is surrounded by nature such as the sea, mountains and rivers. It is the most abundant source of rice in Japan. Its rich dietary culture, developed by nature, gains a lot of attention from home and abroad, and is called "The Kingdom of Food". Furthermore, excellent crafts and precision instruments produced by earnest and sincere craftspeople in Niigata are exported all over the world and their technology is highly recognized both at home and abroad.

Even though Niigata is a regional city, people commonly speak standard Japanese. Prices are lower compared to major cities and it's safe. In addition people in Niigata are unassuming and can't stop helping when they see foreign students trying hard in an unfamiliar place. It's an ideal environment for foreign students to concentrate on studying without anxiety.

Flowers in bloom tell the coming of Spring.

In summer, large fireworks bloom in the night sky.

In the clear air of Niigata, the beauty of autumn leaves is exceptional.

Niigata is the best city in Japan which swans fly to.

## 7. Part-time Job

It is also possible to consult with staff about part-time work.  
We provide guidance and support regarding work practices,  
Part-time work for international students is limited to 28 hours a week.  
Follow the rules and do your best at your part-time job.

©Major working places and estimated hourly wage ※2024.10~

Workplace	Job Description	Average hourly wage (JPY)
Restaurant	Dishwasher / Assistant cook	1,020~1,300
Supermarket / Convenience Store	Stock / Cleaning / Cashier	985~1,175
Factory	Product inspection / Packaging / Delivery operation	1,075~1,344
Hotel / Building etc.	Housekeeping / Cleaning	987~1,000

## 8. Living expenses (estimate)

### 1) Estimated dormitory fees :

All students will live in dormitories assigned by the school. While living together with three or more people, they will learn the basic rules and manners for life in Japan. Rent is paid in a lump sum before entering Japan and every six months from the seventh month after enrollment. In principle, rent is paid in a lump sum during your studies, but it is also possible to pay in installments.

Dormitory fees	
Payment before entering Japan	Payment every six months from the seventh month after entering Japan
¥180,000	¥120,000(Half a year)

~Remarks~

The rent paid before entering the country includes the deposit, honorarium, fire insurance, bedding, and furniture and appliances. Rent does not include living expenses and utility fees. If cleaning fees, repair fees, etc. are incurred when you move out, they will be settled after you move out.

### 2) Estimated living expenses excluding dormitory fees (1 month)

Prices in Niigata are relatively low compared to urban areas. Including food, utilities, communication expenses, and other miscellaneous costs, the total is about ¥40,000 to ¥50,000

In urban areas, it costs about ¥70,000 to ¥100,000, so the cost of living in Niigata is about half to two-thirds of that.
